Face Management

ENVIRON.

A BEAUTIFUL SKIN FOR A LIFETIME

Environ Skin Care achieves outstanding results for those who are serious about skin care. Formulated by Dr. Des Fernandes, a world renowned plastic surgeon, the range contains a unique combination of active ingredients to protect and nourish the skin.

These clinically tested formulations are packed with powerful antioxidants and active vitamins

To give amazing results for all skin types of all ages

The Ionzyme machine used during all Environ facials helps to deliver Environ's active ingredients deep into your skin giving truly amazing results. One facial with an Environ Ionzyme machine is the equivalent to 77 manual facials.

Active Vitamin Treatment (3 areas) £ 65.00

Advanced Active Vitamin Treatment (10 areas) £ 85.00

Packed with nourishing, anti-ageing ingredients, the Active Vitamin Treatment will leave your skin looking radiant and dewy. The freshest, most active forms of vitamin A, C and antioxidants are driven deep into the lower layers of the skin using sound waves and small electrical pulses. This scientific approach stimulates collagen to soften lines and improve elasticity, increase hydration and boost radiance. The Active Vitamin Treatment is suitable for all skin types and is particularly effective at addressing sun-damage, pigmentation, premature ageing, dryness, uneven skin tone and scarring with noticeable differences after just one session.

Suitable for all skin types.

The Focus Frown Treatment (Step 1) £ 180.00

This highly effective treatment uses a special penta-peptide serum to target frown lines and achieve dramatic results. The unique combination of active ingredients is driven deep into the skin to soften lines and reduce muscle tension in the forehead helping to prevent new lines forming. The treatment targets the same chemical complexes as injectables without the associated risks.

Price includes purchase of personal cosmetic focus CIT stamper, penta-peptide serum + three 10 minute treatments over 7 day period.

The Focus Frown Treatment (Step 2) £ 75.00

This highly effective treatment using serum & stamper purchased from step 1 to target frown lines and achieve dramatic results. The unique combination of active ingredients is driven deep into the skin to soften lines and reduce muscle tension in the forehead helping to prevent new lines forming. The treatment targets the same chemical complexes as injectables without the associated risks.

ENVIRON.

Hydra Boost Treatment

£ 75.00

The perfect antidote to dry, lacklustre skin, this intensive treatment deeply hydrates while plumping and firming the skin. Based on Hyaluronic Acid, which holds 1000 times its own weight in water, it helps to reduce fine lines caused by dehydration and increase the plumpness of the dermis, resulting in moisturised, glowing skin.

Cool Peel

£ 85.00

This revolutionary approach to peeling achieves incredible results without damaging the skin. Low strength lactic acid is used to reduce the skin's pH and trigger the release of growth factors, which helps create tighter, smoother skin. It destroys bacteria, boosts hydration and removes the build-up of dead skin cells, helping to decongest the surface and smooth its texture. The Cool Peel is ideal for clients with lines and wrinkles, uneven texture or problem skin, sun damage and rosacea. For best results a course of one peel a week for six weeks is recommended.

Collagen Stimulation Therapy

1st Treatment - £ 300 (price includes cost of Roller unique to you)
Subsequent treatments - £ 200.00

Collagen Stimulation Therapy TM is a cutting edge treatment that harnesses your body's natural powers of healing to tighten skin and achieve incredible results. The skin responds to CST in the same way it would react to an injury. The small amount of bleeding caused during treatment releases powerful growth factors which are part of a natural healing response, resulting in increased collagen and elastin production.

It is especially effective for addressing the visible signs of ageing as well as sun damage, scarring, slackened skin, uneven skin tone and dilated blood vessels. Collagen Stimulation Therapy TM is suitable for all skin types.

During this painless revolutionary procedure, your skincare professional will apply topical anesthetic and will use a small instrument containing tiny needles to create thousands of microscopic channels in the lower levels of your skin. This causes a minimal amount of bleeding that stops within minutes. After the treatment your practitioner will cleanse your skin and apply nourishing vitamins A and C.

Collagen Power Facial

1 hour £65.00 / 1 hour 30 mins £ 85.00

This peptide-packed facial helps boost collagen, soften lines and tighten lax skin, resulting in a more youthful appearance. Ideal for targeting mature or sun-damaged skin.

The treatment uses gentle sound waves to drive a special nutrient-packed serum deep into the lower layers of the skin. The formula contains a unique combination of three peptide complexes which work in synergy to give skin a plumper, more radiant appearance.

The art of medicine • The application of science • The look of beauty

Peter T. Pugliese, MD practiced family medicine before dedicating over 40 years to the science of skin and ageing. The integration of medicine, science and nature is the basis of the fundamental concept of Circadia to create functional products to enhance skin health and longevity.

Only ingredients that can be proven by science are used in the formulation of Circadia.

Circadia Enzyme Peel Treatments

£ 65.00

Enzymes are a necessity for life and every cell, process in the body. The enzyme dissolves different forms of cellular debris & protein build up leaving the skin soft, clear and more receptive to any subsequent correction. After skin analysis the right enzyme peel is applied for your skin type.

- Coco enzyme (sensitive)
- Citrus enzyme (problematic)
- Raspberry enzyme (anti-ageing) (safe during pregnancy)

Circadia Derma Frost Salicylic Peels (12.5% or 25%)

£ 85.00

For sun damaged skin, ageing skin showing deep wrinkling and loss of elasticity, acne, pigmentation abnormalities, fine wrinkles, and rough, calloused skin. Salicylic Acid is a very effective keratolytic agent helping to reduce black heads and treat oily, acne prone skin types.

Circadia Lactic Acid Peel

£ 75.00

Suitable for dry, rough, de-hydrated, thin, damaged and ageing skin. Lactic acid peels promote effective removal of the uppermost layers of dead skin cells whilst protecting your skin's lipid barrier. Your skin won't feel tight or dry and will achieve a healthier appearance. Lactic skin peels are considered to be gentle, safe, and well tolerated by most skin types. There is no downtime as they rarely produce peeling or flaking, post-peel erythema or inflammation, improvements can be seen and felt after one treatment however for optimal results a course of treatments are recommended.

Circadia Alpha Beta Peel

£ 75.00

For dull dry rough skin, acne, blackheads and sun damaged skins. A very effective peel using the perfect blend of acids to exfoliate without harshness, irritation or inflammation. A new technology in peeling. You'll experience little or no stinging and should not experience flaking or peeling.

Skin Types: Tolerated by most skin types and colours. Two strengths; 30% Lactic Acid with 10% Salicylic Acid and 40% Lactic Acid with 15% Salicylic Acid. Improvements can be seen and felt after one treatment however for optimal results a course of treatments are recommended.

Circadia Oxygen Rx Treatment

For the treatment of active acne including cystic acne, acne rosacea, facial redness, thread veins, telangiectasia, smoker's skin, pre and post facial Surgery.

- Germicidal action to the skin - kills the bacteria involved in acne including bacteria under the skin in cystic acne.
- A skin lightening agent improves scars and lightens sun damage.
- Increases skin function - healthier skin.
- Decreases erythema, facial redness.
- Vasoconstricting - constricts the blood flow in superficial capillaries reducing redness.
- Stimulates fibroblasts - the cells which initiate new cell formation, healing and collagen production.

To enhance the penetration of the Oxygen Rx and to decongest acne, blockages and lighten pigmentation we can incorporate an Enzyme Mask Peel before the Oxygen Rx Facial treatment. Improvements can be seen and felt after one treatment however for optimal results a course of treatments are recommended.

Oxygen Rx Treatment	£ 65.00
With Enzyme Mask Peel Therapy	£ 75.00

Advanced Cosmetic Skin Procedures

Advanced Cosmetic Procedure (ACP) treatments are becoming increasingly popular as knowledge about these fantastic treatments increases. A wide diversity of skin blemishes can be quickly and easily treated with immediate and effective results offering an eventual blemish free smooth skin.

Facial Thread Veins

These are not broken capillaries but rather permanently dilated capillaries. They have very thin walls which constantly dilate and constrict. As we age, these vessels lose their elasticity and can become permanently dilated. There are numerous causes including: ageing, hereditary, pregnancy, the rubbing of spectacles, smoking, energetic sports, temperature extremes and harsh weather exposure, hormones and skin fragility. They are commonly seen in a maturing 'English rose' complexion.

Blood Spots

These are bright red vascular blemishes which lie just under the surface of the skin. They are dome shaped or slightly raised and are most common on the trunk or torso and particularly the midriff back or front. Most people aged over 30 have at least one and they are even more common in men than women.

Spider Naevus

A Spider Naevus is a central dilated blood vessel, with smaller capillaries radiating from it like the legs of a spider. They can be found in isolation or gathered together in clumps on areas such as the cheeks.

Skin Tags

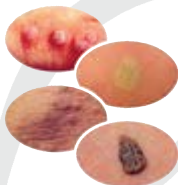

Skin Tags are very common and most frequently found on the neck and face. They often appear with a neck like a mushroom and vary in size from a tiny speck, smaller than a grain of uncooked rice, to the size of a large pea or even larger. They are often found in areas of friction such as the underarm, under the breasts or around the neck where necklaces may irritate.

Milia

These are tiny white hard lumps containing keratin which lie superficially under the surface of the skin and can be easily treated with ACP techniques. Their exact cause is unknown although they are often associated with dry skin which can be acidic.

Warts

There are various types of warts, including plane, common, seborrheic and verrucas. All can be easily and successfully treated. Warts can develop individually or in clusters. Seborrheic warts become more common with increasing age and can grow to up to two inches across.

Dermatosis Papulosa Nigra

Is a common popular disorder which develops in adolescence on black skin and is identified by smooth, dome shaped, brown to black papules seen mainly on the cheeks, neck and upper chest.

Moles

Hairs from moles can be treated by those trained in ACP techniques. Once treatment has started the mole may reduce in size and colour. Hairs in moles are generally deep terminal hairs generally with a very rich blood supply to them. Repeat treatments, as with electrical epilation are required.

Ask your skin specialist for advice about many treatable skin conditions such as: Sebaceous cysts, age spots, xanthelasma and other blemishes.

Advanced Cosmetic Skin Procedures

prices start from £30.00

Laser Treatments

A FREE consultation is required to give an accurate price for all treatments

Soprano Xli virtually painfree laser hair removal for every skin colour

Gives permanent hair reduction, destroying the root so that it can never re-grow. All hair grows in cycles and therefore a course of treatments will be required to achieve optimum results. A recommended course is 6 treatments, you may require more for persistent or hormonal hair growth.

Skin rejuvenation, using state of the art laser technology to dramatically improve skin complexion

Our Harmony laser can also treat fine lines, wrinkles and acne, leaving your skin rejuvenated - looking and feeling better, with a more youthful look, recommended for: Sun damage, Benign vascular lesions, Erythema, Rosacea, Broken veins & Pigmentation.

Pixel Fractional Laser with Radio Frequency Technology (Collagen Stimulation Therapy with Impact) for the reduction of stretch marks, wrinkles, age spots, scarring and sun damage

Using radio frequency energy to produce micro-sparks that travel between the skins surface and the radio frequency electrode to perforate the skin allowing the impact module to accelerate the cosmeceutical products delivery to the dermis. A course of treatments is recommended for optimum results.

Accent Ultra Radio Frequency skin tightening for face and body

Targeted Heat Therapy, Accent uses cutting-edge medical technology to remove fat and contour the face, neck and body without invasive surgery. Using ultrasound and radio frequency to eliminate fat deposits and tighten skin. A course of treatments is recommended for optimum results.

Tattoo removal using the Q-Switched Nd: YAG laser

The Q-Switched Nd: YAG laser delivers light quickly - billionths of a second - and at very high energy. These pulses are absorbed by the tattoo, breaking it into pigment particles small enough for natural removal by the body.
